

Quality

Quality

IFTG's operations are controlled by ISO 9001-2000. Our code on high quality is sustained through out the whole company.

The level of quality in all of our commitments is our most important means of competing, by sticking to this, we will keep our customers satisfied. To achieve this goal we have to focus in all of our colleague's competence, commitment and work towards constant improvement. By our ambition to always – in the right time – deliver flawless and functional products that surpasses the customer's expectations and demands, we prove our commitments to reach a whole new level of quality..
