IFTG & the group have supplied complete packages of valves/pumps/instrument to our customers for more than 10 years. Below are a few of the projects/end-users that we have had the pleasure of contributing to with our packages and brands:

VERACHEM – BRASIL (AKZONOBEL)
ITATA – CHILE (KAVERNER/VALMET)
HAMILTON – USA (PHARMADULE)
OKI – INDONESIA (VALMET)
MONDI – SOUTH AFRICA (KVAERNER)
ARAMCO – SAUDI ARABIA (AKZONOBEL)
NIGC IGAT IV – IRAN (BINA)
MOBARAKEH STEEL – IRAN
SPEC – IRAN
SOUTH KAVEH STEEL – IRAN
TOFIGH DARU – IRAN
KALA PKC – IRAN

SIBUR – RUSSIA
ROSNEFT BUNKER – RUSSIA
GAZPROMNEFT (MOSCOW, PERM, OMSK) – RUSSIA
SHIRAZ PETROCHEMICAL CO – IRAN
RAZI PCC – IRAN
AMIR KABIR PCC – IRAN
IGTC – IRAN
PAKTERMINAL – ESTONIA
MOZYR OIL REFINERY – BELARUS

HELLENIC PETROCHEM SA – GREECE

KAZAKHOIL AKTOBE – KAZAKHSTAN

KEMIRA OY – FINLAND

LUKOIL – RUSSIA

YANTAL RAFFLES SHIPYARD – CHINA

STX FINLAND CRUISE OY – FINLAND

NAVANTIA FERROL SHIPYARD-SPAIN

IRAN SHIPBUILDING & OFFSHORE – IRAN

DUBAI DRYDOCK – UAE

SEADRILL WEST ALPHA – NORWAY

ASC SHIPBUILDING – AUSTRALIA

NEVSKIY SHIPYARD – RUSSIA

SADRA – IRAN

GIPCO – IRAN

BALTISKIY – RUSSIA

Kindly contact us for a complete international reference list.

Valmet (former Metso Fiber)

Since 1992 we cooperate with Valmet (former Metso Fiber) in Karlstad, as the purchasing partner in regulating and on-off valves. IFTG supply Kvaerner Pulping with everything from small projects to complete packages of valves for fibre lines. Our task in this cooperation is to optimize the choices of

valves concerning quality, price, delivery time, purchase and production of documents.

AkzoNobel

In AkzoNobel's ambition to make their purchase and logistic processes more efficient, they have chosen IFTG as their partner within the product groups; valves, pumps and instruments. The mission for IFTG is to supply and manage process components, by means of our own group companies and other contracted external suppliers to the Scandinavian sites as well as to projects worldwide.

Lukoil

Lukoil's quest in finding a single source partner for supplying valves for their new platforms has resulted in a deep collaboration with IFTG – Axelvalves. From regular marine valves, to the most sophisticated high end valves are supplied by our distributor and sister company, Flow Technology.

Gazprom

IFTG – Axelvalves has been chosen as project partner to Gazpromneft's petrochemical refineries in Moscow and Omsk. The scope of supplies is ball, gate, globe, butterfly and check valves. Specifications includes both high temperature and high pressure valves.
